

Resolution Opposing LB 626

Sponsored by Quinton Corwin, LD24 and S.A. Mora James LD27

Whereas, LB 626 denies individualized reproductive healthcare to women and/or persons with uteruses based on a proposed abortion ban beginning at six weeks after conception;

Whereas, LB 626 makes it a crime for any healthcare provider to perform an abortion anywhere in the State of Nebraska;

Whereas, LB 626 is harmful and discriminatory to Nebraska women and/or persons with uteruses who need reproductive healthcare access;

Whereas, women and/or persons with uteruses across Nebraska deserve individualized reproductive healthcare and LB 626 prevents them the freedom to choose their own level of healthcare;

Therefore, Let it Be Resolved the NDP recognizes women's and/or persons' with uteruses Right to make their own individualized Reproductive decisions, rather than the State of Nebraska. NDP members vow to personally contact via email, phone or fax their State Senators and request their opposition to LB 626.
